WORK EXPERIENCE

ELLUMINATI INC.

Mobile Application Developer

May – 2021 to Present

- Gained strong foundational experience in mobile development, beginning flutter journey and building expertise in both native Android/iOS and cross-platform (Flutter/Dart) development.
- Possess strong knowledge of **native Android (Kotlin/Java)** and **iOS (Swift/Objective-C)**, enabling smooth integration of platform-specific features.
- Experienced in handling **deployment processes**, including generating **Android App Bundles (AAB)**, iOS IPA builds, provisioning profiles, and App Store/Play Store publishing.
- Contributed to two flagship products: **Taxi Solution** and **E-Super Service** (an all-in-one platform for e-commerce, salon & restaurant bookings, and other on-demand services).
- Applied unit testing (Mockito) and debugging to ensure application stability and maintainability.

EMPIERE TECH.
Mobile Application Developer
June 2018 – April 2021

- Worked on a wide range of client-based and service-oriented applications across diverse domains including healthcare management, music streaming, restaurant booking, social feed/post apps, event management, gold trading, e-commerce, and fitness/gym platforms.
- Designed and implemented responsive UI/UX for multiple screen sizes, ensuring consistency and usability across devices.
- Integrated RESTful APIs, third-party SDKs, and payment gateways, enhancing app functionality and business workflows.
- Built real-time features including Google Maps integration, location tracking, and video calling with Agora SDK.
- Implemented cloud services such as Firebase (auth, messaging, analytics) and AWS authentication, improving app scalability and reliability.

EDUCATION

GUJARAT TECHNOLOGICAL UNIVERSITY

Computer Science Engineer. (CGPA: 7.92/10)

Jul – 2013 to May – 2017

PROJECTS

QATCH GO QATCH GO IOS

- The Qatch GO app is the ultimate tool for taxi drivers who want to work efficiently and use stations and rides seamlessly. Developed by Travyum, this easy-to-use app allows drivers to streamline their daily activities and easily manage their trips.

AMAN CAR

- Aman Car is a ride-sharing app for fast, reliable rides in minutes—day or night. There's no need to park or wait for a taxi or bus. With Aman Car, you just tap to request a ride, and it's easy to pay with credit or cash in select cities.

AMAN CAR CAPTAIN

- Aman Car Captain is an app for driver, Help as you move people and things where they need to go. Drive whenever you want — no offices, no bosses. Wherever you want to go, we want you to enjoy the journey and the destination.

QATCH QATCH APP IOS

- With Qatch, you can easily compare, book, and relax when it comes to taxi services. Whether traveling to or from airports in the Netherlands, Germany, or Belgium, Qatch makes the process effortless. Thanks to our nationwide coverage, you can book taxi cab services from anywhere in the Netherlands.

QATCH PARTNER QATCH PARTNER APP IOS

- Our goal is to make drivers' lives as easy as possible. Thanks to our technology you will get more trips, you can set up your own team of drivers and manage your administration easily.
  The app is developed for drivers by drivers.
